

*No more waiting for the vacuum trucks
No more messy leaf piles in the streets*

This fall, remember two words:

Bag it!

Beginning in October, the Town of West Hartford will collect leaves in 30-gallon biodegradable paper leaf bags, *only*. The curbside leaf vacuum service has been discontinued. The leaf bag collection will occur every week on your trash collection day for 10 weeks, from mid-October to mid-December. You can go at your own pace. Bag your leaves when they fall. You'll never have to worry again if your leaves will be down in time for them to be picked up.

Reduce, Reuse, Recycle . . . Do your part for the environment!

Leaves are recycled into rich mulch which is available in the spring to residents, free of charge (a delivery fee applies). You may also consider mowing your leaves into a fine mulch which provides nutrients to your lawn and soil.

For more information and for a list of leaf bag suppliers, visit the Department of Public Works' website at www.westhartford.org/publicworks
